About Cedar Care At Home

We are a family business that puts our Clients and their well-being first. We are small enough to preserve that important personal touch, but also large enough to offer high standards of care and a stable, safe service.

Established in 1987, Cedar Care Homes Ltd is a well reputed company amongst families and professionals who have experienced our care and services.

We are now taking the next step to provide a seamless home care service in the community to provide support with sensitivity, to individuals who live at home.

What makes Cedar Care at Home special?

Cedar Care At Home has been borne out of our commitment to deliver high quality person centred care. With a track record of successfully operating high quality Care Homes, we truly understand how to meet the needs and expectations of our Clients and our established operational departments are well equipped to support care and services for people at home.

We have a strong foundation and experience; with the ability to network seamlessly with our healthcare partners with whom we have developed successful working relationships over the years.

Our Team

- All our team undertake essential mandatory training and in addition, we source specialised training for specific health conditions to ensure that we deliver a high quality person centred service.
- We offer trained staff for medication administration to maintain the safety of your prescribed medication needs.
- We have reliable staff with years of experience in the caring/ nursing industry.
- Our team come from a diverse range of backgrounds, and this brings a richness to the service where we have a common vision of providing a holistic service for individuals.
- We are fully compliant with health and social care regulations and all our team have DBS checks, induction training, supervisions and annual appraisals.

Our Services

- Scheduled visits
- All personal care assistance or support
- Medication administration
- Preparing and serving meals
- Light household duties
- Support for health appointments, shopping or social/ leisure activities
- Effective care for convalescence after a hospital stay
- Respite stay at one of our local homes, if preferred, to recover from a serious illness or injury, including reablement and rehabilitation
- 1-1 support for individuals in care homes who may need additional care for a period of time
- Palliative/end-of-life care

Personalised care and support

- We will allocate a team of two or three carers to support you so that you get to know each other well.
- Your team will take the time to understand what matters most to you and provide individualised focused and sensitive care, tailored to your lifestyle, habits, and health conditions.
- We will agree a daily routine based on your choices and preferences, which will be reviewed regularly to ensure that we consistently meet your needs and expectations.
- Together we will assess any risks, for example Mobility assessments, to ensure that you remain safe around your home.

Next Steps

- A pre-assessment can be arranged for a face to face visit to discuss your care and support needs.
- Care plans and risk assessments will be completed and agreed with you prior to starting the service. This will detail your personalised care needs to enable our team to provide consistent support according to your needs and preferences.
- Meet and greet visits with care staff will be arranged so that an initial introduction has been made before the service starts.
- The start date for the home care service will be agreed upon between you and Cedar Care At Home.

We do everything we can to ease any care worries for our Clients and their families. From the moment we begin to support an individual at home, we treat them with the care, respect and kindness that we would want for our own family. Most importantly, we believe that our Clients should have real choices about what they do and how they are treated. We listen to what people say, and we constantly adapt and improve what we do.
